FASTOGT

About us

FASTOGT is a growing company that provides interfaces and other services for the newest television.

We value the quality of our product, that is why many people choose FASTOGT.

Fasto TV

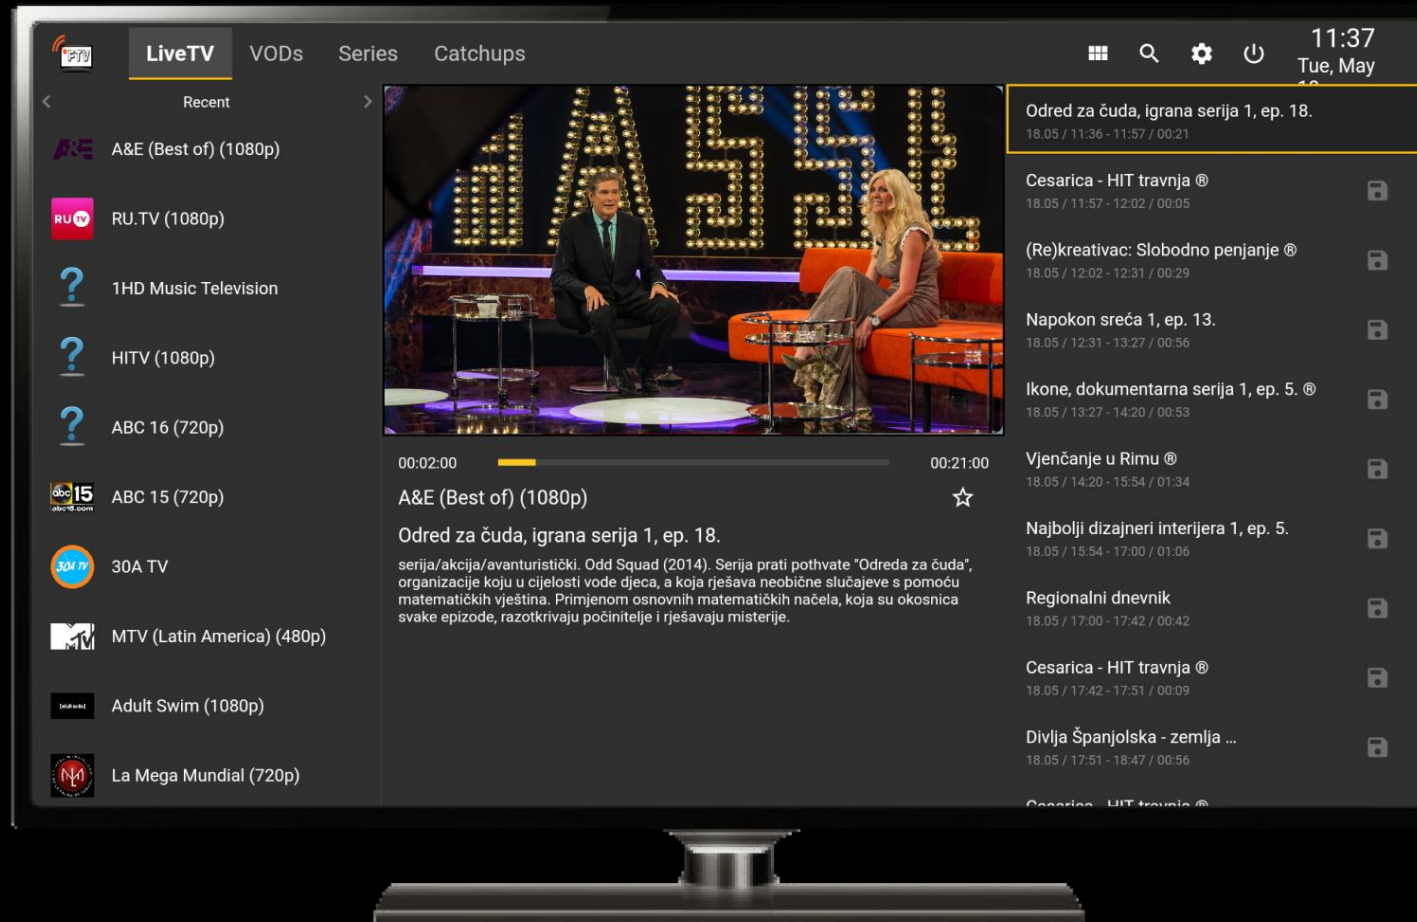

FASTO TV is a standard IPTV application.

The application has a convenient and intuitive interface, as well as a number of features

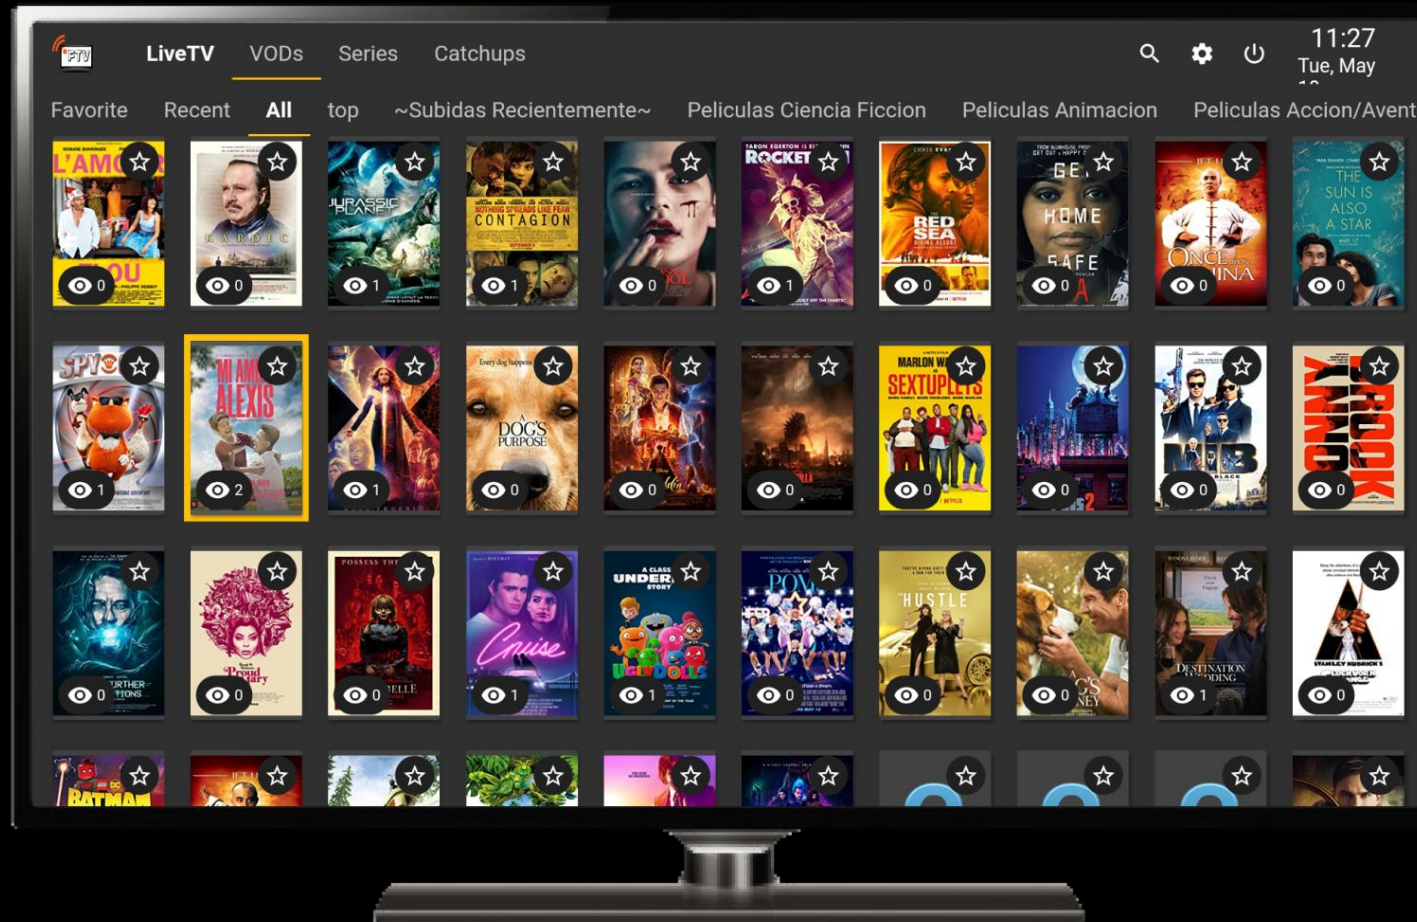

Live TV

This module allows you to view programs and channels in real time.

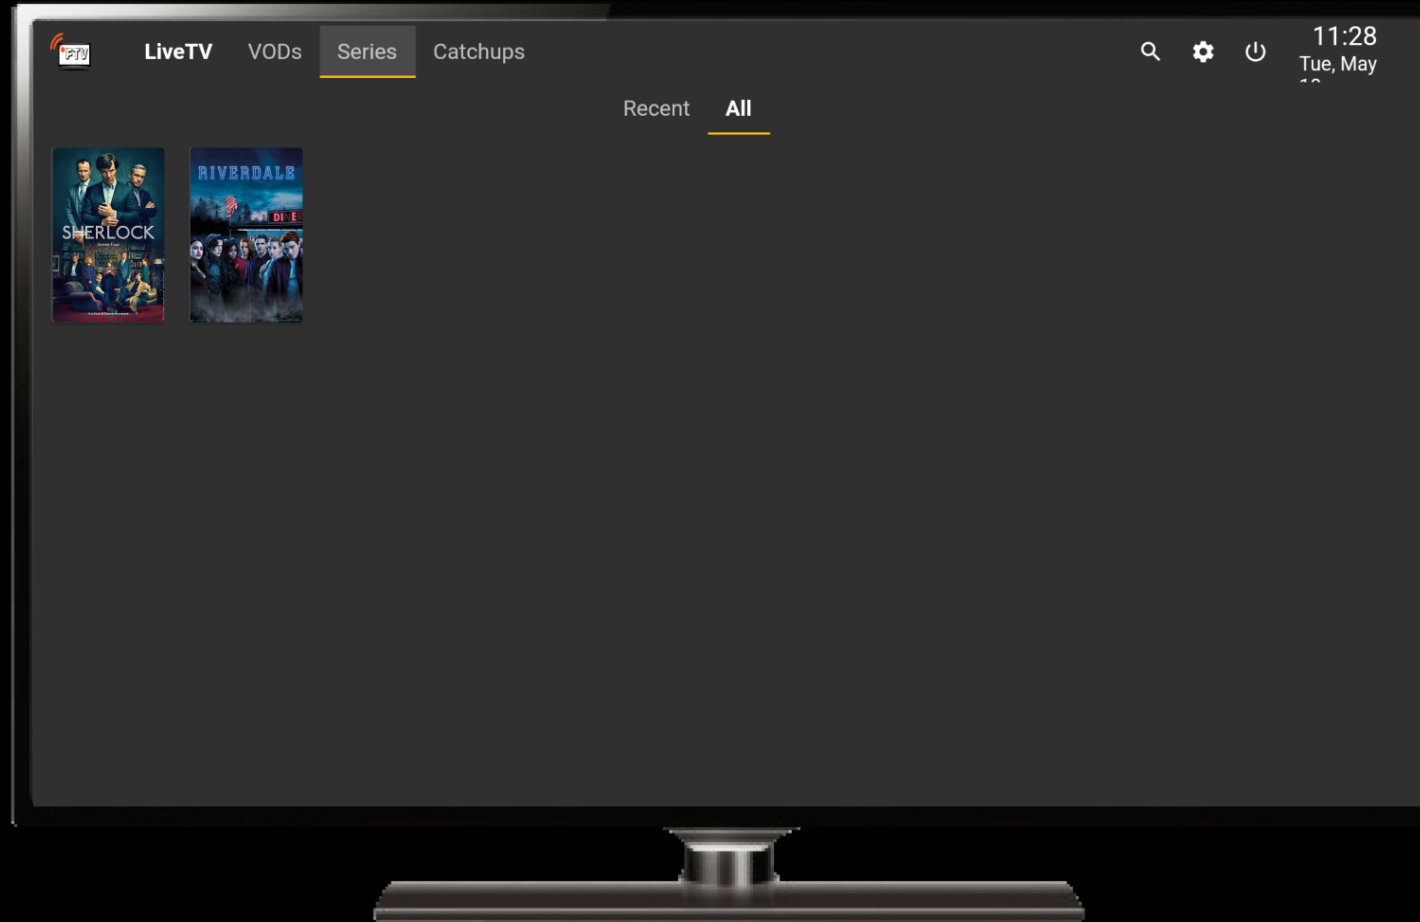

VODs (Videos on Demand)

Allows to browse the catalog of movies and TV series at the user's request.

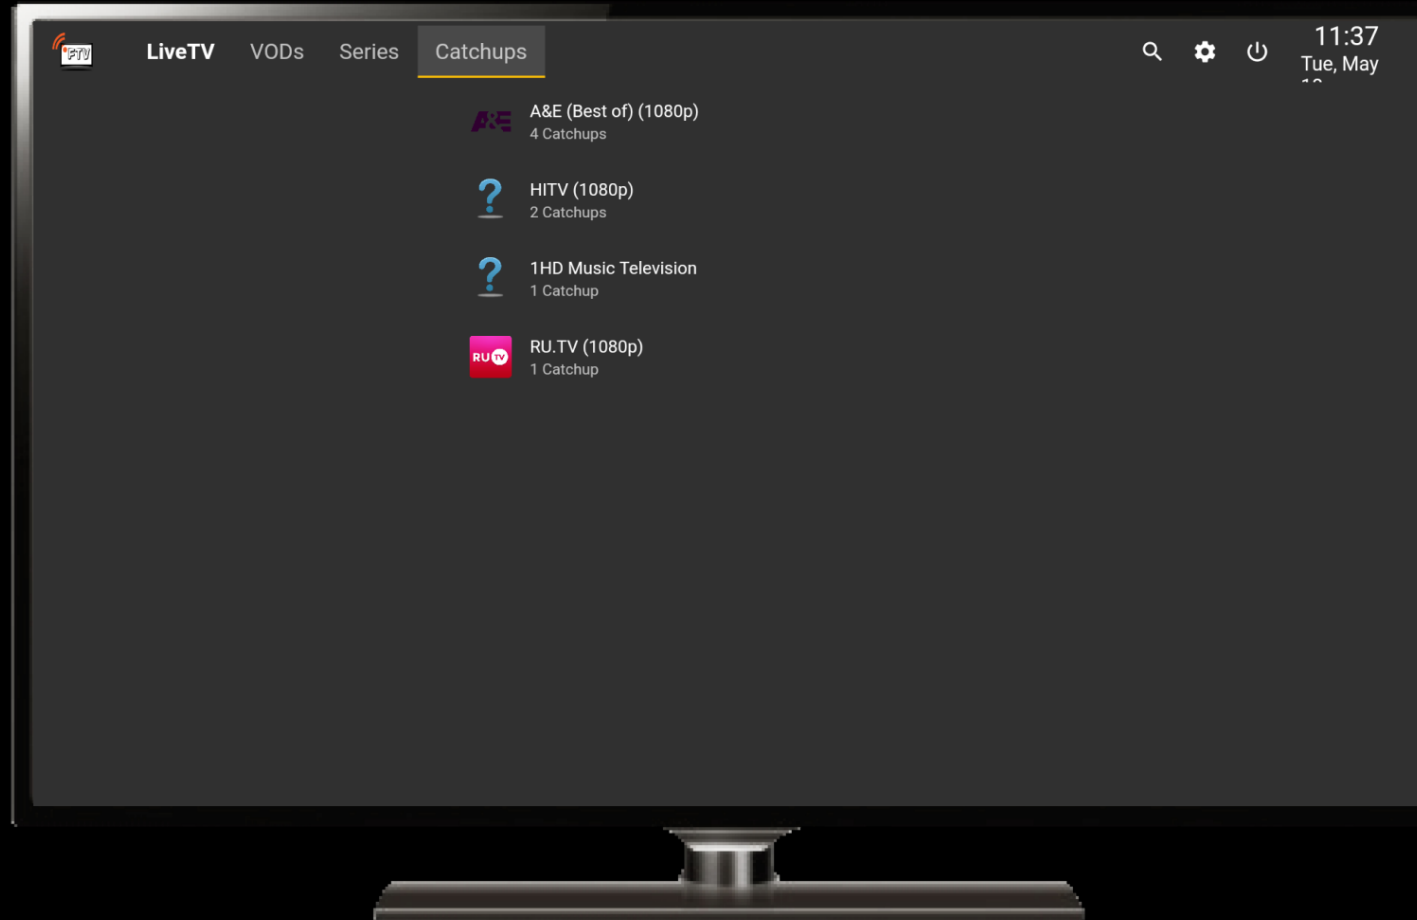

Series

Contains recordings of serials and individual episodes for viewing without delay.

Catchups

Allows to view programs from the LiveTV module that were previously set for recording.

ABC 15 (720p) 56° 52° WPDE.COM NEWS / WEATHER / SPORTS ||

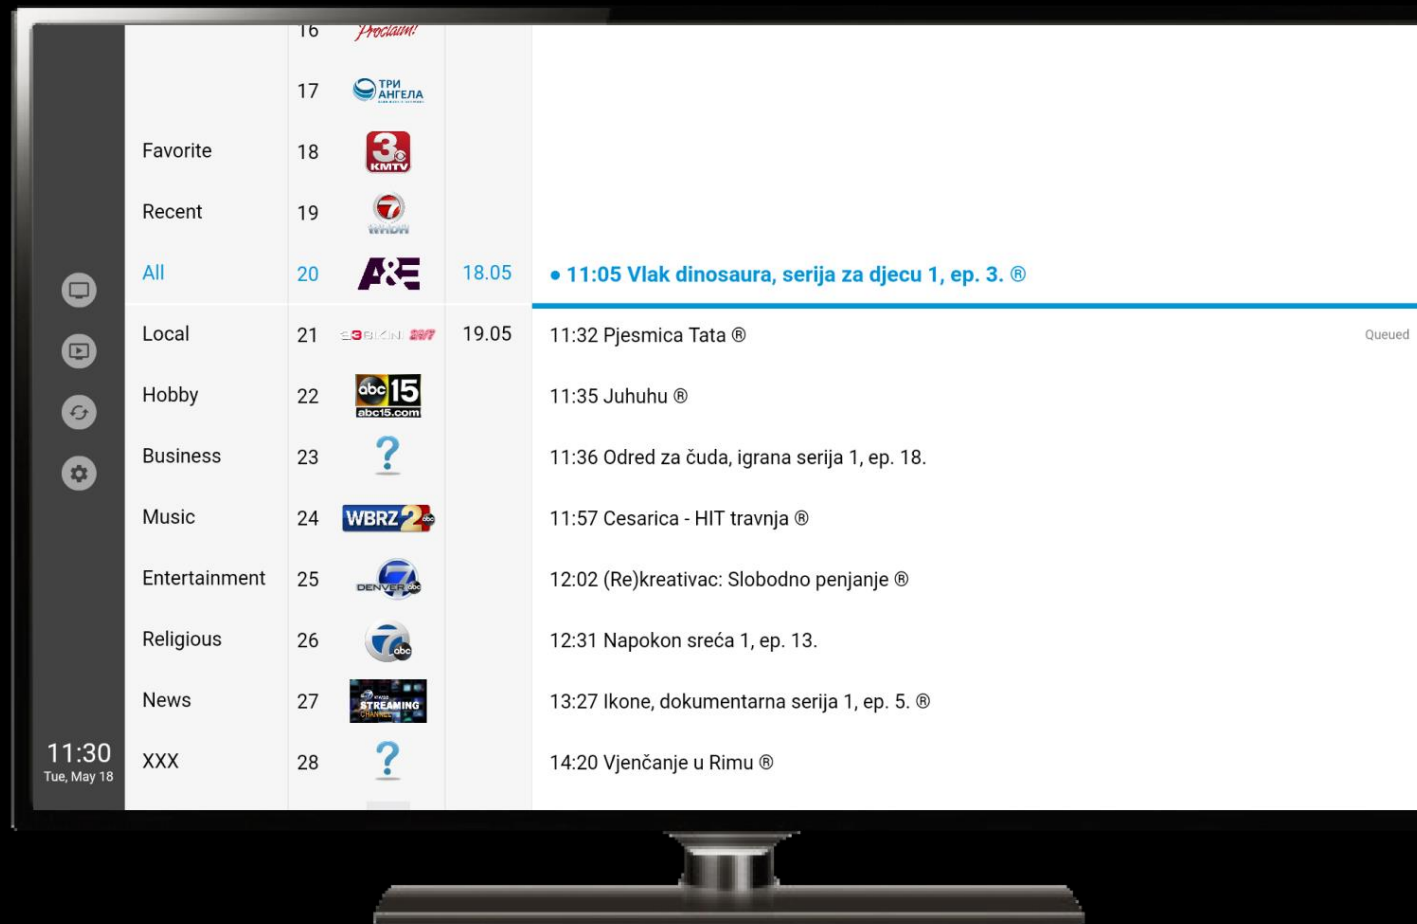

Flash

Flash is an application with a completely different design, advanced filters and capabilities.

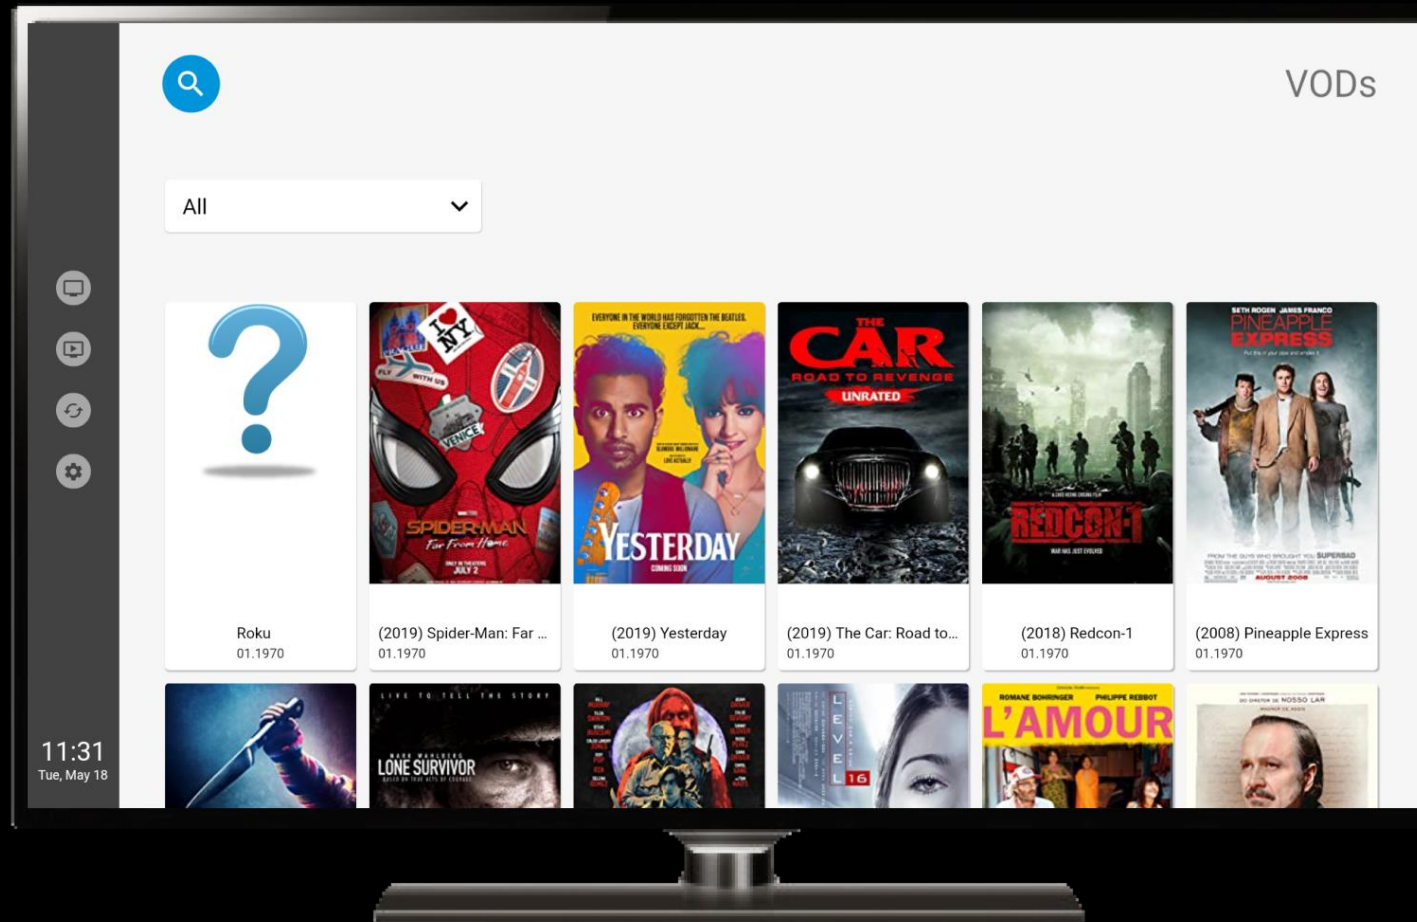

LiveTV

This module allows to view programs and channels in real time, sort programs by localization, by popularity and user interests.

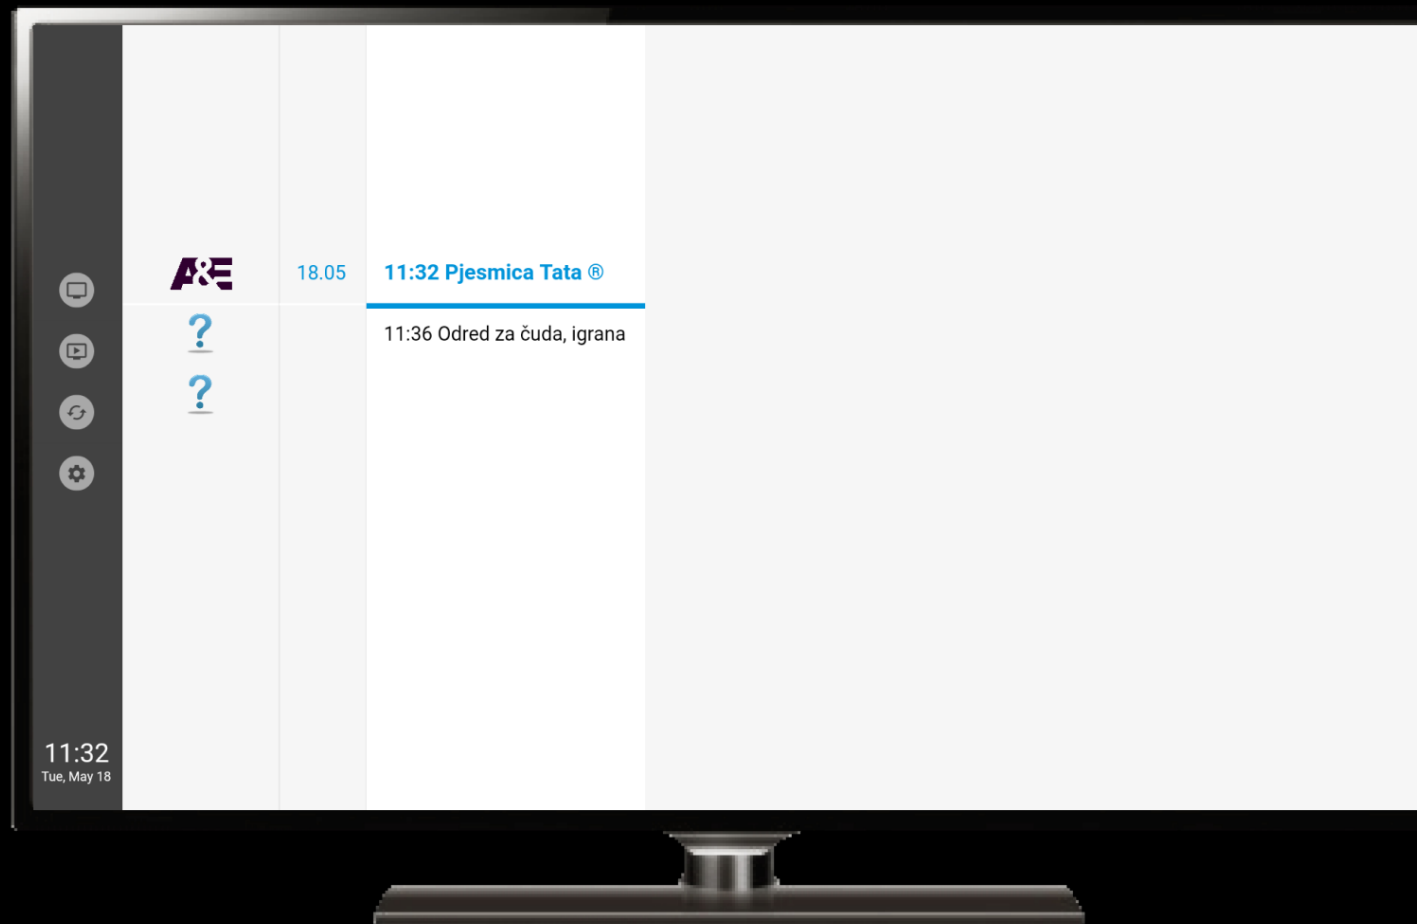

VODs (Videos on Demand)

Allows to browse the catalog of movies and TV series at the user's request.

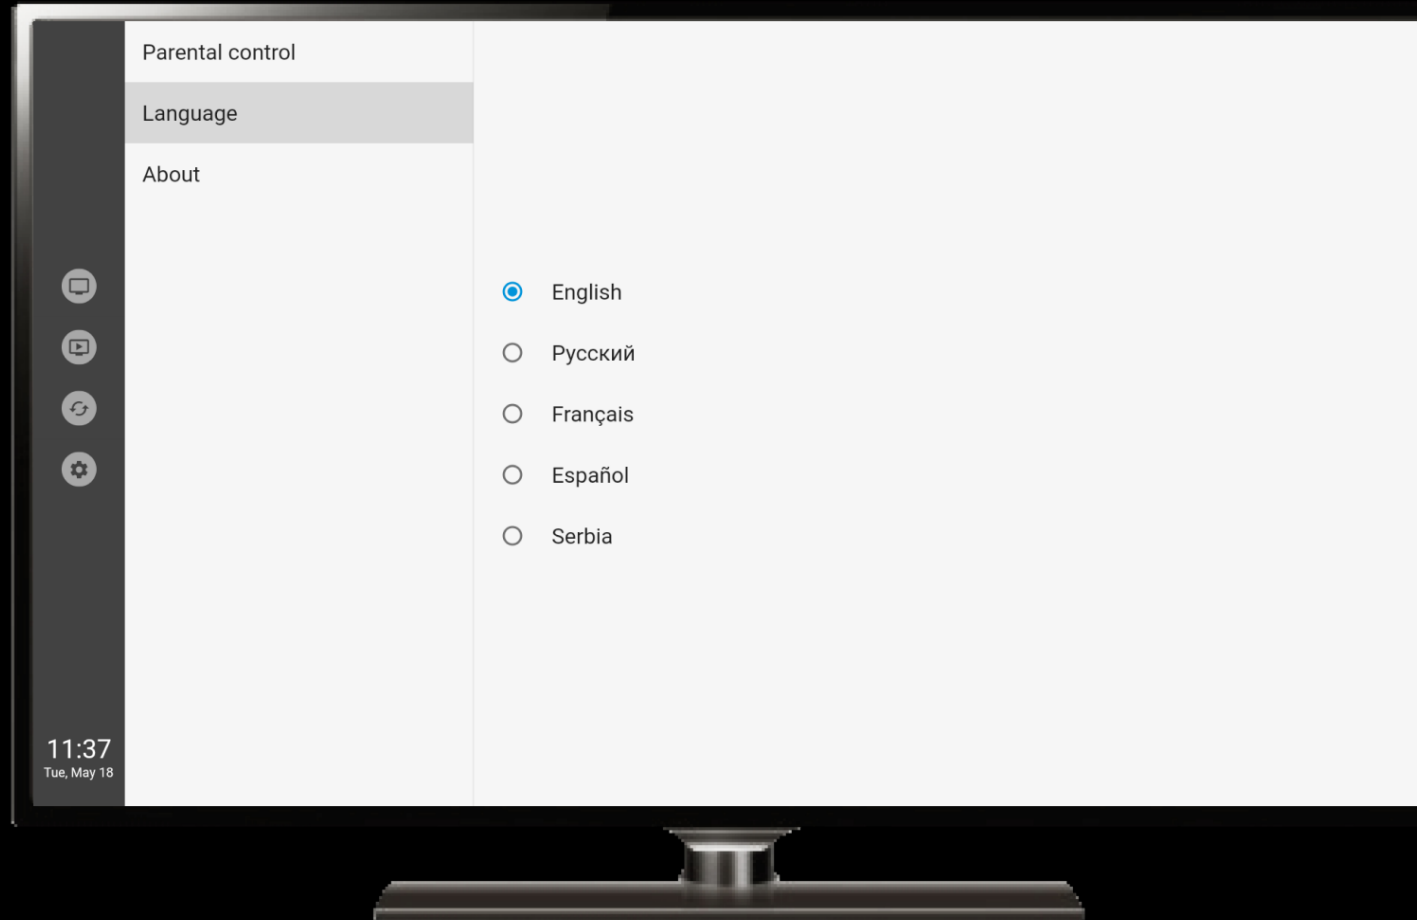

Catchups

Allows to view previously recorded programs and series.

Settings

Advanced settings have been added to the application, allowing not only to edit the user account, but also to select localization settings.

Player

The video player displays a scene from a reality show. The main video area shows a white truck with 'Nation Waste' branding and a worker in a white shirt and hard hat. The player interface includes a progress bar, a play button, and the A&E logo. The video title is 'A&E (Best of) (1080p)' and the current time is 11:35 - 11:36. The A&E logo is prominently displayed in the bottom left corner of the player area.

NGERS. WE ARE REAL. WE ARE
STOPPABLE. WE ARE STRONG. WE
REALITY 11:34
