

# online**event**space

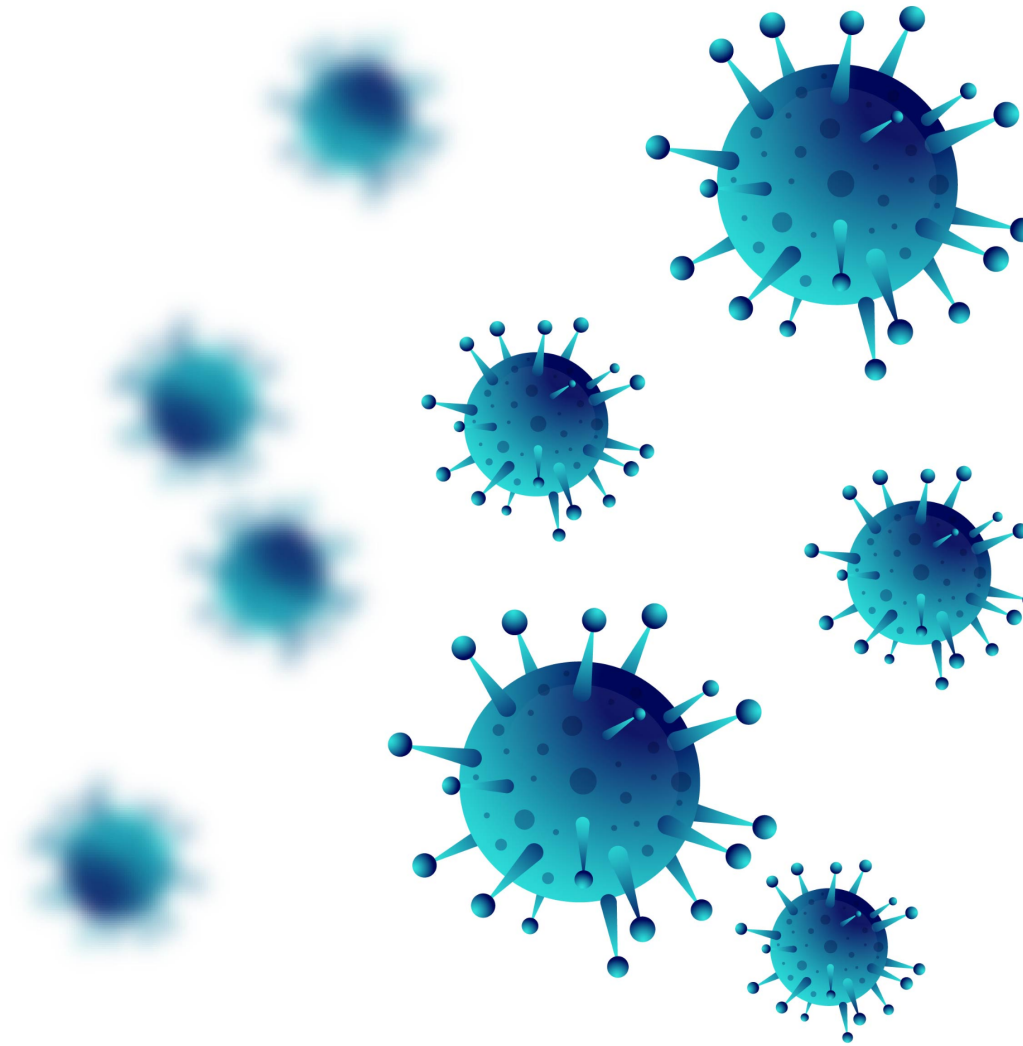

▶ Platform for online events in 1 click ◀

# 2020

This year pushed us to go online.

We decided to do it on our terms and created **onlineeventspace** for your business goals or personal needs.

**Onlineeventspace** is built to run any type of events for you or your clients.

# Online **event**space

We use more than 30 apps each month.

All of them are great tools made by talented people. But every time using any tool you say **“I wish it could have...”**.

So, we decided to put the main event tools under one roof to **create adaptive and easy-to-use platform.**

# About us

**Onlineeventspace** is a dynamic product team of 9 professionals with 3 full stack developers and 2 engineers.

Our friends and advisors - event-, HR-, product- and marketing managers - shared their problems and needs to guide us with first features.

We develop our platform based on out-of-the box approach, bringing best decisions to achieve the event goal.

## Development

10 years experience in web-development

## Marketing

10 years practice of digital marketing

## Event

13 years expertise with more than 100 events per year

# Main features
